

Namdo School

Here's what students and teachers feel on their newly build school.

Name: Kunga Kyinzom Class: 6

"Now we have a proper Library on new school building. I can enjoy reading different books. I enjoyed my free time at Library. We have separate library. I love reading story books."

Name: Pala Tsering Class: 5

"Earlier we had very congested ground, now after finishing the construction we have proper playground. I and my friends play football a lot."

Name: Pema Thinley Class: 4

"Our classroom have enough space and the classroom isn't dark as it used to be. The classroom have enough natural light and classroom is also warm."

Name: Pema Chimi Lhamo Class: 6

"We have proper toilet for both boys and girls. We clean and look after the toilet according to our schedule duty. We are also able to get drinking water and we washed our lunch meal utensils on it."

Name: Pema Gonjor Class: 6

“On previous old classroom, we face leakage of water through roof ceiling and which make us feel cold. Now we don’t have to worry about leakage of water drops and the classroom is warm and I’m happy and safe at my classroom.”

Name: Rinzin Wangmo Class: 3

“Our previous school building was made of stone and mud and doesn’t have proper flooring. The classroom was dusty on those days. Now our newly concreted classrooms have proper cemented flooring and it is easy to clean and managed our furniture.”

Name: Pema Dhundup Class: Nursery

“My classroom is beautiful and my teacher teach us English, Nepali and Tibetan subject. My classroom have huge windows and door. My classroom have wooden flooring.”

Name: Yungchuk Wangmo Class: 5

“I feel our classroom are strong and reliable. We don’t have to worry about the snowfall and rainfall too. I used to attend my class in fear on earlier school building. I feel safe and happy to be in classroom.”

Mr. Tsering Dorjee Gurung (Teacher)

“It is much more easier to run our classes these days on newly build classroom. It was quite challenging to run classes on previous classroom. We had classroom but we were lacking the proper classroom environment for our students. Now I’m happy and proud to be part of Namdo school team.”

Mr. Pema Tsewang Gurung (Teacher)

“I finished my lower secondary school here at Namdo school. I’m one of the product of Namdo School. During my schooling year here at Namdo we didn’t have proper classroom and many requirements were missing. Now the school have come up to massive changes. Our students are very lucky to be on modern classroom with the facility of basic requirement for a student. Huge thanks to donors.”

Mr. Yungdung Tsewang Gurung(Project Coordinator)

“Back in year 2018, I proposed Mrs. Sonngard Trindler for the new school building with pictures and videos which shows the harsh conditions of school of that time. Lucky we, Mrs. Trindler accepted the proposal and she work on collecting funds. My huge thanks to Mrs. Trindler and whole Schulverein Lo-Manthang who made it possible. My huge thanks and appreciation to all the individuals and organization who help in making these huge proposal happened.”

“Building a new school was a huge challenge to all of us. During the year of COVID whole things were different. Many restrictions were there but we made it possible. As old building were not in good conditions the classroom were demolished and we didn’t have proper room to run classes. We managed huge tents with the help of parents and classes were run on it. As tents were temporary classroom, during rainy season to run classes wasn’t possible yet. The junior level students didn’t make their regular class by which the studies were disturbed.”

“We teachers voluntarily involved in construction of buildings on weekend under the Engineer guidance. It was good experience to all of us knowing more about the buildings.”

Thank you all for making it possible.
